TO WHOM IT MAY CONCERN:

Please allow this to serve as a letter of recommendation for DISCERNITY.

Discernity initially installed our wireless system at the Brown 4-1/2 years ago. We have had an outstanding working relationship during this time. We have found the service team at Discernity to be a wonderful asset, always available to assist when one of our groups or customers have a question or need. There have been several occasions when we had a need for support in the late evening...Discernity was there for us and saved the day, typically with something that did not involve their contracted scope of work.

Discernity has truly been a great partner. I would highly recommend their services to any business.

Sincerely,

A handwritten signature in black ink, appearing to read 'Brad Walker'.

Brad Walker
Vice President and General Manager
